DETAILED ACTION

Allowable Subject Matter

Claims 1-39 are allowed.

The following is an examiner's statement of reasons for allowance:

The Examiner is relying upon Applicant's arguments for the patentability of the instant claims, specifically Applicant's argument that Vanmaele does not teaches that Y contains true amino functionality but teaches amidic functionality, and that the Y groups claimed by Applicant because their high basicity and amino functionality would be incapable of self-assembly, and that Q as claimed by Applicant are quaternary ammonium groups that are incapable of self-assembly because they are incapable of taking part in hydrogen bonding was found persuasive and therefore the rejection of the claims has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Veronica Faison-Gee whose telephone number is 571-272-1366. The examiner can normally be reached on Monday-Thursday and alternate Fridays 8 am to 5 pm.
